

REAMP ONLINE

Reamping is a technique commonly used in studios which consist in passing a recorded line level signal through an amplifier and then record its sound. This way you can record your electric guitar/bass or keyboard at home and get the sound of any of our classic amps. Forget about plugin emulations, try the real thing.

HOW IT WORKS

1. RECORD YOUR ELECTRIC BASS, GUITAR OR KEYBOARD:

Record line level signal at your home studio.

2. GET YOUR TRACKS READY

In order to get the most out of Reamp Online and make it as fast as possible, there are a few things to bear in mind before sending your tracks out.

3. SEND THEM:

Send a WeTransfer link with your tracks to the following email address...

4. CHOOSE AN AMP:

Pick any of our amps. Email us what your choice was, as well as any particular amp setting you may want (tremolo, reverb, tone, gain, etc.)

5. CHOOSE THE MICROPHONES:

You can choose up to three of any of our available microphones or if you prefer we can do it for you based on what we think could work better.

6. QUOTE:

Once we get your tracks we'll send you a quote tailor-made for your project.

7. PAYMENT:

You can pay through PayPal. Please don't forget to save and send your payment confirmation to us.

8. GET YOUR TRACKS:

Once the payment has been credited to our PayPal account, you will get your mix back as soon as our schedule lets us. This usually won't take longer than a week since payment is done.
